### Insurance Filing and Financial Responsibility

As a service to our patients with insurance, Middlecoff Dental Group agrees to accept an **estimated** co-payment at the time service is rendered and bill insurance for the balance.

Even with our best efforts, we can only **estimate** what insurance will pay. We are never given a **guarantee** of coverage or benefits from your insurance carrier and situations may arise when insurance will deny a claim or a portion of a claim when we submit it for payment.

We will always restore teeth with tooth colored composite fillings since we feel that this type of restoration is far superior to silver amalgam fillings. Many insurance companies allow an alternate treatment of, or **downgrade** to silver amalgam fillings on back teeth, molars and sometimes premolars (even insurance companies recognize that this is not the best restoration). If your insurance company downgrades the difference between the cost of a composite restoration and amalgam restoration would not be paid by insurance. If you are scheduled for fillings, please let us know before hand if you prefer to have silver amalgam fillings rather than tooth colored composite fillings.

Insurance is a contract between **you** and **your carrier** and if you have concerns we strongly suggest that you contact your carrier prior to your visit.

**In the event that insurance pays less than estimated or not at all, I agree to pay any amount not paid by my insurance to Middlecoff Dental Group.**

I authorize the release of any information necessary to process my claims. The information I have given is accurate and true to the best of my knowledge.
